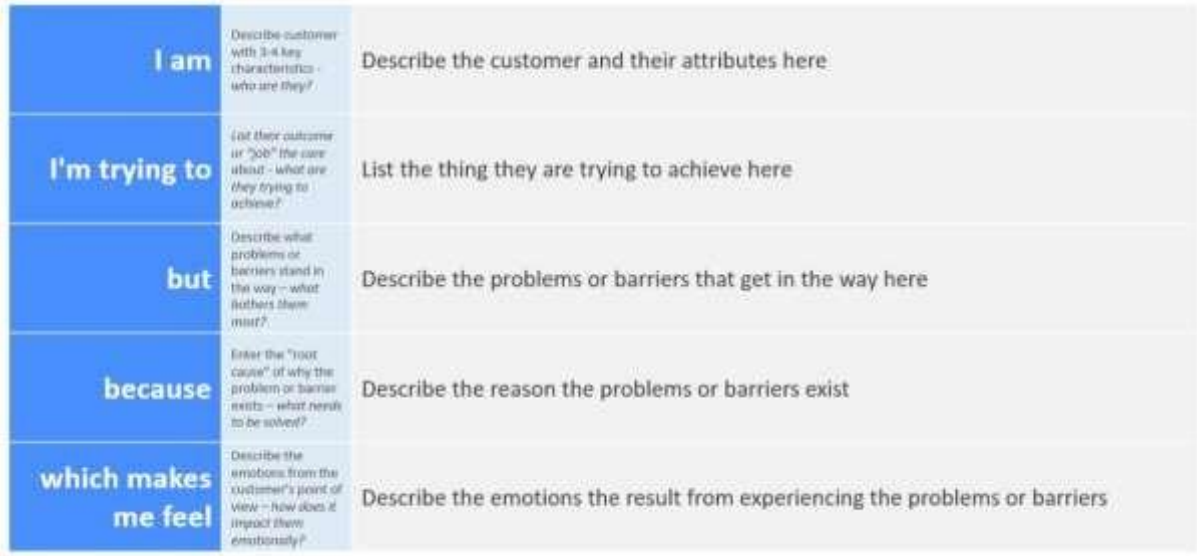
Customer Problem Statement Template:

Create a problem statement to understand your customer's point of view. The Customer Problem Statement template helps you focus on what matters to create experiences people will love.

Problem Statement (PS)	I am (Customer)	I'm trying to	But	Because	Which makes me feel

PS-1	A policy analyst,	Identify how different	The available	It lacks consolidated	Frustrated and limited in making data-driven policy

A well-articulated customer problem statement allows you and your team to find the ideal solution for the challenges your customers face. Throughout the process, you'll also be able to empathize with your customers, which helps you better understand how they perceive your product or service.



I am	Describe customer with 3-4 key characteristics - who are they?	Describe the customer and their attributes here
I'm trying to	List their outcome or "job" the care about - what are they trying to achieve?	List the thing they are trying to achieve here
but	Describe what problems or barriers stand in the way – what bothers them most?	Describe the problems or barriers that get in the way here
because	Enter the "root cause" of why the problem or barrier exists – what needs to be solved?	Describe the reason the problems or barriers exist
which makes me feel	Describe the emotions from the customer's point of view – how does it impact them emotionally?	Describe the emotions the result from experiencing the problems or barriers

	economist, or decisionmaker interested in understandin g economic development and growth trends across nations.	factors contributing to economic freedom—like rule of law, government size, regulatory efficiency, and open markets—impact a country's prosperity.	data is complex, scattered across various sources, and difficult to interpret without a unified and visual platform.	visual insights that clearly connect economic freedom scores with socioeconomic performance indicators like GDP, quality of life, or business environment.	or investment decisions due to the lack of clarity and accessibility in economic freedom data.

PS-2	A student or researcher studying global economic trends and their drivers.	Analyze patterns and correlations between economic freedom indices and national prosperity over time using historical data.	I find it challenging to process large datasets and manually derive insights without a robust visualization tool.	Raw data often doesn't tell a story unless it is interpreted through visual analytics.	Overwhelmed and unsure about the reliability of my insights without a powerful analytical platform like Tableau.
